Investment Performance

The company generated a net profit after tax of K8.19 million for the year ended December 2013 compared with the net profit K4.73 million for the year ended 2012.

Investment Portfolio had grown from K42.35 million in 2012 to K49.99 million in December 2013 increased by K7.64 million.

Investment Objectives

Over time the Company aims to:

- provide a positive rate of return to Shareholders via a combination of capital growth and income.
- provide Shareholders with regular dividends; and
- preserve the capital of the Company

Approach to Investing

The investment philosophy is built on taking a medium to long-term view of value, which means the aim is to buy and hold stocks over the longer term.

Chairman's Report

The structural deficiencies in sovereign economies exposed during the GFC remain a common theme through 2013.

However, sweeping reforms in recent years through the developed economies are slowly showing signs of steady recovery. Despite ongoing political and economic turbulence in some regions, key metrics in developed economies indicate Governments push for economic stability in the US, Eurozone, Japan and China heralding a cautious "risk-on" period for investors.

A continued sense of optimism remained through 2013, with positive economic indicators and the winding down of the US' quantitative easing program in the latter half of the year. Developed markets traded in excess of pre-GFC levels, fuelling concerns of a "correction", however evidence continues to show some ongoing pick-up in Europe and a measured contraction in the Chinese economy. Emerging markets continued their lacklustre performance; however they may see a pick in the coming year.

Kina Asset Management Limited (KAML) results reflect the continued recovery in international markets and are indicative of the investment foresight arising from our market outlook and underpinned by investment strategy aimed at delivering on our stated objectives of: providing a positive rate of return to shareholders by a combination of both capital growth and dividend income; provide shareholders with regular dividends; and preserving the capital of the company. KAML's performance has been further enhanced by the Fund's ability to take advantage of the international recovery and the exchange rate movements in the PNG Kina.

Domestically, our significant investments in PNG equities should continue to remain steady, while lack of available liquidity remains an issue, but dividend yields in excess of bank deposits rates continue to support share prices.

KAML has been diligent in its domestic, Pacific and global research and we are heartened by the World Bank growth outlook for PNG going forward into 2014 which has been revised upward from the 4 % projected in the 2013 budget.

However, we maintained the view that medium term economic growth will be slow as government infrastructure spending fails to compensate the falling demand investment in the private sector.

We have noted that the sluggish local demand, together with the completion of the construction phase of the PNG LNG project and inefficiencies in implementing Government spending proposals will all contribute to reduce economic activity.

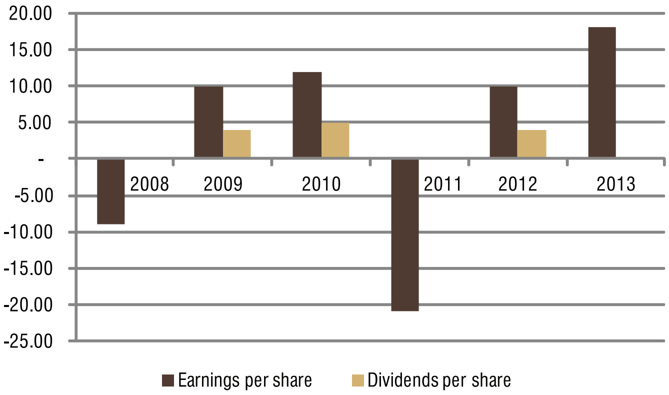
The PNG LNG project, the nation's biggest infrastructure project committed so far has been developed and completed ahead of schedule within an environment of relative political and economic stability.

Chairman's Report

This year's report outlines and defines the professional approach that KAML undertakes to ensure that we manage investment funds with integrity. KAML is pleased to continue to provide the opportunity for Papua New Guineans to share in the diversity of investment opportunities by owning shares in the nation's first listed Investment Company, enabling shareholders to benefit from major local, regional and international opportunities.

KAML has now been able to pay a dividend to shareholders from profits over the past two years and many shareholders have taken up the opportunity to invest their dividends in the buy up of further shares to add to their portfolios.

Earnings Per Share & Dividend Per Share



I am pleased to be able to report a successful year for KAML investors and thank them for their loyal support during the early years of development, which has now seen the company realise its growth potential on behalf. Your Board will continue its commitment to strategic long term growth opportunities to provide shareholders with a well-balanced and sound investment portfolio.

Sir Rabbie Namaliu GCL KCMG CSM
CHAIRMAN

CEO's Report

The Kina Asset Management Limited (KAML) 2013 annual report reflects the continuing growth of the PNG economy and as a result KAML has increased the proportion of domestic investments in locally based equities.

This strategy reflects your Company's long term investment objective to protect capital and provide investors with steady growth. The year in review has been encouraging and reflects our holistic approach to portfolio management as shown through KAML's strategic asset allocation.

The investment portfolio increased by K7.64 million or 18.0%, from K42.35 million at end of 2012, to K49.99 million at end of December 2013. The increase in the portfolio value was attributed to improving sentiment in global equities markets, satisfactory dividend yields and your Company's forward planning to take advantage of very accommodative foreign exchange movements.

During the year, KAML implemented changes to its asset allocation, moving the target exposure of international and domestic to a neutral range of 50%-60% international versus 40%-50% domestic. This reweighting of the portfolio allowed us to take advantage of the continued global recovery as well as capitalise on the favourable currency movements.

The record 18% return for 2013 has been encouraging and reflects the long term investment strategy of the company to provide investors with steady growth.

The annual performance of the domestic listed equities, surpassed its benchmark, returning a positive 5.60% across the domestic portfolio while the market (KSi Index) fell 1.90% through 2013. This was achieved through a long standing strategy of perpetually monitoring and re-evaluating each position, as well as holding domestic equities that the Investment Manager, felt had good growth prospects during the year.

Through the year, KAML increased its strategic overweight position in the Bank of South Pacific to benefit from a high yield. KAML also reduced its position in Credit Corporation, which has historically been a large exposure within the portfolio to take advantage of the 13.60% gain as and when liquidity was available.

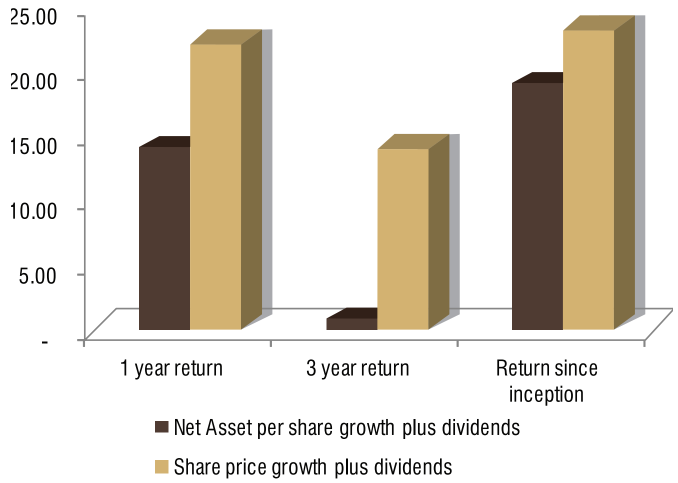
Our preference for banking and financial assets, as opposed to materials and energy, saw the Australian equities portfolio return 16.90% in line with its S&P/ASX 50 benchmark which returned 16.80% prior to the foreign exchange effect.

In the Global equities portfolio, the major contributor to the performance of the Company were our significant holdings in Vanguard International Shares Index Fund which returned 57.20% before exchange rate effect (68.7% after foreign exchange effect), beating the MSCI ACWI ex Australia benchmark which returned 48.03% through the year. The ETF's performed slightly below our benchmark before currency effect, retuning 1.0% compared to the 2.8% returned by the MSCI All Country Asia ex-Japan benchmark.

CEO's Report

During 2013, the Papua New Guinea Kina depreciated approximately 18.0% against the USD and 2.9% against the AUD. But through the effective implementation of our strategy to rebalance and increase our target domestic allocation to 50% of total portfolio, we were able to benefit not only from the capital appreciation of our offshore investments, but also recognise the gains from remitting funds back to PGK at accommodative exchange rates.

Net Asset & Share Price Performance % per year - ended 31/12/13



Again KAML is pleased to report that our shareholders have been prepared to participate in the marketplace and as a result, the share price continues to be attractive to investors. During the year, a total of 1,117,736 shares of KAML were traded at an average price of K1.01. As at 31st December 2013 KAML closing price was K1.10 per share. The Net Tangible Asset for the year ending 31st December 2013 was K1.06, up by K0.14 compared to the previous corresponding period which was K0.92.

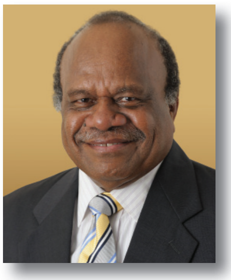
KAML is delighted to achieve a positive return and improved net outcome through 2013. We look forward to continuing to offer our shareholder a diversified, professionally managed listed investment vehicle in which to invest in diverse opportunities both domestically and abroad.

Syd Yates OBE
Chief Executive Officer & Managing Director

The Board of Directors

The names, particulars and other office holdings of the directors and office holders of the company during or since the end of the financial year are:

SIR RABBIE NAMALIU GCL, CSM, KCMG — CHAIRMAN



Sir Rabbie Namaliu GCL, CSM, KCMG, a distinguished statesman, is a former Prime Minister of Papua New Guinea, a former Speaker of the Papua New Guinea National Parliament, and committed Papua New Guinean with ministerial experience in Foreign Affairs & Trade, Treasury, Primary Industry, Petroleum and Energy, and other areas of government responsibility including being Chairman of the Public Services Commission. Sir Rabbie Namaliu holds directorships of various Papua New Guinean companies, including non-Executive Director of Marengo Mining Limited, Bouganville Copper Limited and Director of InterOil Corporation Limited. Sir Rabbie Namaliu is the Chairman of the publicly listed investment company Kina Asset Management Limited and Kramer Ausenco, a joint venture of PNG engineering company Kramer (PNG) Limited and Ausenco of Australia. He is also the Chairman and non-Executive Director of Kina Securities Limited and recently became a Director of the Post Courier. Sir Rabbie Namaliu was appointed Chairman of the 2012 PNG Games Host Organising Committee by the East New Britain Provincial Government to plan and coordinate the preparations of the PNG Games held in Kokopo. Sir Rabbie Namaliu is currently a member of the Papua New Guinea Institute of Directors.

GREGORY TAYLOR AO — NON - EXECUTIVE DIRECTOR

Gregory Taylor is Chairman of Kumul Hotels Limited, Chairman of Paradise Foods Limited and recently retired as Director of Nambawan Super Limited. Greg has had extensive experience in Australian Government administration, across senior positions in Treasury and Prime Minister and Cabinet before being appointed to the position of Chairman, Industries Assistance Commission. He then headed in turn three Departments of State responsible respectively for employment, education and training; primary industry and resources; and industry, science and technology. In 1997 he became Executive Director at the IMF for Australia, PNG and a number of other Pacific and East Asian countries, as a consequence directly representing PNG's economic interests at the IMF. From 2000 he advised the then Secretary of the Treasury in PNG, and Chaired the original Superannuation Task Force.

SYDNEY GEORGE YATES OBE — CHIEF EXECUTIVE OFFICER & MANAGING DIRECTOR

Syd holds a number of directorships including the Port Moresby Stock Exchange Limited, Kina Securities Limited and its Subsidiaries, Media Niugini Limited, and is a director of Papua New Guinea Olympic Committee. Mr Yates has significant experience in the banking, finance and investment industries. He joined Kina Securities Limited in 1997 as the Chief Executive Officer and Managing Director and has been responsible for the significant growth of Kina Finance Limited and Kina Funds Management Limited. He spearheaded the drive for the establishment of the Port Moresby Stock Exchange and established Kina Asset Management Limited. He is a Fellow of the Australian Institute of Company Directors, Fellow of Australian Institute of Management and a Fellow of Financial Services Institute of Australasia.

Corporate Governance

Kina Asset Management Limited (KAML) has adopted an approach to Corporate Governance that seeks to match global practice.

The Board ensures that it complies with the requirements of the Port Moresby Stock Exchange ("POMSoX"). It also closely monitors developments in corporate governance principles and practice in other countries.

KAML is mindful of the advantages of demonstrating to investors that its corporate governance standards meet the requirements expected of companies listed in countries such as Australia. This Corporate Governance Statement therefore compares KAML's corporate governance practices to the ASX Corporate Governance Council and Best Practice Recommendations as far as possible.

The Board of KAML is very aware of its responsibilities to shareholders. The set of Corporate Governance principles developed by KAML is therefore intended to provide a framework that will help to ensure that KAML deals fairly and openly with all its stakeholders.

KAML intends to publish its corporate governance practices on its web site, which is currently under construction.

1. The Board of Directors

a) Code of Conduct

The Board has adopted the following code, providing guidance to directors in performance of their duties.

1. Care, Skill and Diligence

   A director has a duty to use reasonable care and diligence in fulfilling the functions of the office of director and exercising the powers attached to that office.

2. Good Faith

   A director must act honestly, in good faith, and in the best interests of the Company as a whole and for a proper purpose.

3. Proper Purpose

   A director must use the powers of office for a proper corporate purpose. A director's primary responsibility is to the Company but the director should also have regard to the interests of people who have dealings with the Company.

4. No Misuse of Information

   A director must not use information acquired as a director improperly to gain advantage for the director or for someone else or to cause detriment to the Company.

5. No Misuse of Position

   A director must not misuse his or her position as a director improperly to gain advantage for the director or for someone else or to cause detriment to the Company.

6. Conflicts of Interest

   A director must not give preference to personal interests, or to the interests of any associate or other person, where to do so would be in conflict with the interests of the Company.

7. Disclosure of Interests

   A director must disclose to all other directors any material personal interest that he or she or any associate may have in a matter that relates to the affairs of the Company.

8. Accountability

   A director has a duty to account to the Company for business opportunities which arise as a result of his or her being a director of the Company and to use Company resources only for the benefit of the Company.

9. Confidentiality

   Confidential information received by a director in the course of his or her duties remains the property of the Company and should not be disclosed to any other person without the prior written consent of the Chairman of the Company unless the disclosure is required by law.

10. Business Decisions

    When making a business decision, a director must make the decision in good faith for a proper purpose and without material personal interest, inform himself or herself about the subject matter of the decision, and rationally believe the decision to be in the best interests of the Company.

11. Reliance on Information

    A director may rely on information or advice from Company Board committees, officers and competent experts and advisers provided he or she does so in good faith and makes an independent assessment of the information or advice.

12. Delegation

    When delegating powers, a director must enquire as to a delegate's reliability and competency and must reasonably believe in good faith that the delegate will act in conformity with the director's duties and the Company constitution.

13. Compliance

    A director should not engage in conduct likely to have an adverse effect on the reputation of the Company. A director must comply with all laws and regulations and act in accordance with this Code of Conduct.

1. The Board of Directors

b) Role and Responsibility of the Board

Key functions of the Board include:

- overall strategy of the Company, including operating, financing, dividend, and risk management.
- approving an annual strategic plan and an annual budget for the Company and monitoring results on a regular basis.
- ensuring that appropriate risk management systems are in place, and are operating to protect the Company's financial position and assets.
- ensuring that the Company complies with the law and relevant regulations, and confirms with the highest standards of financial and ethical behaviour.
- establishing authority levels
- directors' remuneration
- selecting, with the assistance of the Audit Committee, and recommending to shareholders, the appointment of external auditors.
- approving financial statements.

The Board has delegated to management responsibility for:

- developing the annual operating and capital expenditure budgets for Board approval, and monitoring performance against these budgets.
- developing and implementing strategies within the framework approved by the board, and providing the Board with recommendations on key strategic issues.
- developing and maintaining effective risk management policies and procedures.
- keeping the Board and the market fully informed of material developments.

c) Membership, expertise, size and composition of the Board

The Corporate Governance Principles determine that the majority of the Board should be independent.

At the date of this Report there are 3 directors, with 2 Non Executives designated as independent, plus the Managing Director. Under the Constitution, at each annual general meeting one-third of the company's Directors, in addition to any Director appointed during the year, excluding the Managing Director, must offer themselves for re-election by the shareholder. Normally, Non-Executive Directors are expected to serve a maximum of four three-year terms, dating from the AGM at which the newly elected Director is first confirmed by shareholders.

The Board has a broad range of skills, experience and expertise that enables it to meet its objectives. The Board accepts that it has responsibility to shareholders to ensure that it maintains an appropriate mix of skills and experience within its membership.

As is typical of small financial markets generally there are, in Papua New Guinea, very considerable demands on the relatively small numbers of people with the skills and experience to fill the demanding role of Non-Executive Director on the Boards of the nation's corporate institutions.

In these circumstances it is inevitable that a number of the Non-Executive Directors of KAML will also have roles on the Boards, or in Senior Management, of institutions that may be significant shareholders in, or substantial customers of, the Company. Directors of KAML are meticulous in handling situations where there could potentially be conflicts of interest, by declaring their interests in advance, and absenting themselves from any consideration of matters where a conflict might arise. The Company's Corporate Governance Principles require Directors to disclose any new Directorships and equity interests at each Board meeting.

The Board does not accept that any office bearer and/or employee of an institutional shareholder will have an automatic right to be appointed to the Board.

d) Role and selection of the Chairman

The Chairman is elected by the Directors and his role includes:

- ensuring all new Board members are fully aware of their duties and responsibilities.
- providing effective leadership on the company's strategy
- presenting the views of the Board to the public.
- ensuring the Board meets regularly throughout the year, and that Minutes are taken and recorded accurately.
- Setting the agenda of meetings and maintaining proper conduct during meetings.
- reviewing the performance of non-executive Directors

The Chairman is not permitted to occupy the role of the Managing Director.

Sir Rabbie Namaliu, who sits on the Board as an independent Non-Executive Director, is the current Chairman.

e) Director independence and Conflict of Interest Directors are determined to be independent if they are judged to be free from any material or other business relationship with the Company that would compromise their independence.

In assessing the independence of Directors the Board will consider a number of criteria including:

- whether a Director is an executive of the Company.
- whether a Director is a substantial shareholder of the Company or otherwise associated directly with a substantial shareholder of the Company.
- whether a Director has a material contractual relationship with the Company or other group member other than as a Director of the Company.
- whether a Director is free from any interest and any business or other relationship which could, or could reasonably be perceived to, materially interfere with the Director's ability to act in the best interests of the Company.

This information is assessed by the Board to determine whether on balance the relationship could, or could reasonably be perceived to, materially interfere with the exercise of the Director's responsibilities. Materiality is assessed on a case-by-case basis.

As noted earlier, the Board is cognisant of the need to avoid conflicts of interest and it has in place policies and procedures for the reporting of any matter, which may give rise to a conflict between the interests of a Director and those of the Company. These arrangements are designed to ensure that the independence and integrity of the Board are maintained.

Financial Note 13, Related party transactions, provides details of Directors' interests.

f) Meetings of the Board attendance

Scheduled meetings of the Board are held normally every two months, and the Board meets on other occasions as necessary to deal with matters requiring attention.

The Chairman, in consultation with the Managing Director, determines meeting agendas. Meetings provide regular opportunities for the Board to assess KAML's management of financial, strategic and major risk areas. To help ensure that all Directors are able to contribute meaningfully, papers are provided to Board members one week in advance of the meeting. Broad ranging discussion on all agenda items is encouraged, with healthy debate seen as vital to the decision making process.

g) Review of Board Performance

The Board is cognisant of the need to continually identify areas for improvement; to ensure that it meets the highest standards of corporate governance; and for the Board and each Director to make an appropriate contribution to the Company's objective of providing value to all its stakeholders. It is intended to extend the assessment of the Board as a whole to include an assessment of the contribution of each individual Director.

The performance review will be conducted annually, and may involve assistance from external consultants.

h) Board Access to Information and Advice

All Directors have unrestricted access to company records and information and receive regular detailed financial and operational reports to enable them to carry out their duties. The Chairman and the other Non-Executive Directors have the opportunity to meet with the Managing Director for further consultation, and to discuss issues associated with the fulfilment of their roles as Directors.

2. Committees

a) Board Committees and Membership

The Board has established one Committee; namely the Audit Committee.

b) Committee Charter

The Committee Charter is available in the shareholders information section of the KAML website.

c) Committee Structure

Committee members are chosen for the skills, experience and other qualities they bring to the Committee.

At the next Board meeting following each Committee meeting, the Board is given a report by the Chairman of the respective Committee and Minutes of the meeting are tabled. The Audit Committee is comprised of two Non-Executive Directors, who are duly appointed by the Board.

d) Audit Committee

The Audit Committee is delegated by the Board with responsibility for reviewing monitoring the:

- integrity of the financial statements and the financial reporting and audit process.
- external auditor's qualifications, performance and independence.
- systems of internal control of KAML
- systems for ensuring operational efficiency and cost control.
- systems for approval and monitoring compliance with laws and regulations (both in Papua New Guinea and overseas).
- implementation of Board decisions by management and making recommendations to the Board for the appointment of the external auditor.

In the course of fulfilling its mandate, the Committee meets with the external auditors.

i. Annual Financial Statements

The Audit Committee reviews the annual financial statements to determine whether they are complete and consistent with the information known to Committee members and to assess whether the financial statements reflect appropriate accounting principles.

ii. External Audit

The Audit Committee is responsible for making recommendations to the Board on appointment and terms of engagement of the external auditors. The selection is made from appropriately qualified companies in accordance with Board policy. The Board submits the name of the recommended appointee to shareholders for ratification.

The Committee ensures that significant findings and recommendations made by the external auditors are received and discussed promptly, and that management responds to recommendations by the external auditors in a timely manner.

The external auditor is invited to the Annual General Meeting of shareholders and is available to answer relevant questions from shareholders.

iii. Compliance

The Audit Committee reviews the effectiveness of the systems for monitoring compliance with all legal and regulatory obligations and the Constitution of the Company. The Committee obtains regular updates from management and satisfies itself that all regulatory compliance matters have been considered in the preparation of the financial statements. Reviews of the findings of any examinations by regulatory agencies are undertaken and the Chairman of the Audit Committee has the right to approach a regulator directly in the event of a prudential issue arising.

iv. Risk Management

The Committee's role in the Group's risk management process are detailed in 3(b) below.

3. Risk Management

a) Approach to Risk Management

The Company's Risk Management activities are aligned to the achievement of KAML's Objectives, Goals and Strategic Focus Plans.

KAML distinguishes the following major risks:

Credit Risk – The potential for financial loss where a customer or counter party fails to meet their financial obligation to the Company.

Market Risk – The potential financial loss arising from the Company's activities in financial, including foreign exchange, markets.

Liquidity Risk – The risk of failure to adequately meet cash demand in the short term without incurring financial losses.

Interest Risk – Risk to earnings from movement in interest rates.

Operational Risk – The risk of loss resulting from inadequate or failed internal processes, people, or from external events, including legal and compliance risk.

The Board of Directors monitors the above risks. Operational risk is managed by the Managing Director.

The Company's risk management policy ensure that KAML has in place acceptable limits for the risks identified. The risk management approach encompasses the following:

- defining the types of risks that will be addressed by each functional or policy area.
- ensuring that mechanisms for managing (identifying, measuring, and controlling) risk are implemented and maintained to provide for organisation wide risk management.
- developing information systems to provide early warning, or immediate alert, of events or situations that may occur, or already exists, that could create one or more types of risk for the Company.
- creating and maintaining risk management tools, such as policies, procedures, controls and independent testing, personnel management and training, and planning.

b) Risk Management roles and Responsibilities

The Board accepts responsibility for ensuring it has a clear understanding of the types of risks inherent in the Company's activities. Therefore responsibility for overall risk management in KAML is vested with the Board.

There is a formal system of financial and operational delegations from the Board to the Managing Director.

The Board has also delegated to the Audit Committee responsibility for overview of loss control and for overseeing the risk management function. The Audit Committee is responsible for providing regular reports and recommendations to the Board on the risk management activities of the Company.

c) Management Assurance

The Board is provided with regular reports about KAML's financial condition and its operating performance by KFM. Annually the Managing Director certifies to the Board that:

- the financial records of the Company have been properly maintained and that they accurately record the true financial position of the Company.
- the financial statements and notes meet all appropriate accounting standards.
- there are sound systems of risk management and control that re operating effectively.

4. Ethical Behaviour

Kina Asset Management Limited recognises its responsibilities as an investment company and is committed to being a responsible corporate citizen. The Company interprets its responsibilities as not only requiring it to abide by Papua New Guinean laws, but also requiring it to conduct its business in accordance with internationally-accepted practices and procedures.

The Company believes that these same responsibilities extend from the board and management to all workers providing services for the Company, whether or not they are employees of the Company.

a) Code of operations

The Company recognises the importance of conducting its operations in a manner consistent with the principles of honesty, integrity and fairness. Compliance with the relevant laws and regulations of each province in which it operates is expected.

b) Shareholders and the Financial Community

The Company is committed to increasing shareholder value in a manner consistent with its responsibilities to all stakeholders.

The Company recognises the benefits of fair, accurate, timely and understandable disclosure and aims to keep shareholders informed as to its true and fair financial position and performance.

c) Political Involvement

The Company may represent its views to governments and other third parties on matters which affect its business interests and the interests of its shareholders, employees and others involved in their businesses and operations.

d) Competition

The Company supports the principles of free and fair competition in the market in compliance with applicable competition and consumer protection laws.

e) Privacy and Information

The laws in relation to privacy, and the use of confidential or price sensitive information, will be respected by the Company.

f) Conflicts of Interest

Conflicts of interest should be avoided. Where a conflict of interest does arise, full disclosure must be made and all relevant persons must not participate in any related decision-making process.

Directors and Management of the Company are subject to restrictions for buying, selling or subscribing for securities in the Company if they are in possession of inside information, i.e. information which is not generally available and, if it were generally available, a reasonable person would expect to have a material effect on the price or value of the securities of the Company.

Further Directors and management may only trade in the securities of the Company, subject to the foregoing insider trading restrictions, during each of the eight weeks following the announcements of half yearly profit and yearly profit or the date of issue of a prospectus. Management should discuss proposed share trades with the Managing Director in advance, who in turn will keep activities. Directors should discuss proposed share trades with the Chairman in advance.

In addition Directors and management must not trade in any other entity if inside information on such entity comes to the attention of the Director or management by virtue of holding office as an Officer of the Company.

5. Market Disclosure

The Company's continuous disclosure regime is fundamental to the rights of shareholders to receive information concerning their securities. The most important aspect of the Company's shareholder communication policy is to comply with the continuous disclosure regime and to implement best practice disclosure policy.

As a listed public company, the Company is required to comply with a continuous disclosure obligation contained in the Listing Rules of Port Moresby Exchange Limited (POMSoX). This continuous disclosure obligation is complemented by requirements under the Securities Act 1997 (PNG) (Securities Act).

Under Listing Rule 3.1, the Company is required to notify POMSoX immediately it is or becomes aware of: any information concerning it that a reasonable person would expect to have a material effect on the price or value of the Company's securities.

The Company must not release this information to any other person (such as the media) until it has given the information to POMSoX and received an acknowledgment that POMSoX has released the information to the market (Listing Rule 15.7).

a) Exceptions to disclosure

Disclosure under Listing Rule 3.1 is not required where each of the following conditions is satisfied:

a. a reasonable person would not expect the information to be disclosed; and

b. the information is confidential, and

c. one or more of the following applies:

(i) it would be a breach of a law to disclose the information;

(ii) the information concerns an incomplete proposal or negotiation;

(iii) the information comprises matters of supposition or is insufficiently definite to warrant disclosure;

(iv) the information is generated for the Company's internal management purposes; or

(v) the information is a trade secret.

The Company must meet its continuous disclosure obligation as soon as any one of paragraphs (a), (b) and (c) is no longer satisfied. For example, any information which is not confidential does not qualify for the exceptions from disclosure. It is therefore essential that information which is to be withheld is and remains subject to strict confidentiality obligations and is not leaked. If the information has been leaked, even in breach of a duty of confidentiality, it is no longer confidential, and disclosure of the information to POMSoX will be required.

Disclosure may also be required if POMSoX forms the view that the information has ceased to be confidential. In any event, information will have to be disclosed if a reasonable person would expect it to be disclosed, regardless of the fact that it is confidential and falls within any of the categories in paragraph (c) above (eg, it is a trade secret or relates to an incomplete proposal).

b) Awareness of information

Under POMSoX Listing Rule 19.12, the Company becomes aware of information if a director or executive officer of the Company has, or ought reasonably to have, come into possession of information in the course of the performance of their duties as a director or executive officer of the Company.

That is, the disclosure obligation applies not only to information of which the directors or executive officers are actually aware, but also information of which those persons ought reasonably to have been aware.

Accordingly, whenever a director or executive officer is in possession of information which may have a material effect on the price or value of the Company's shares, it is critical that the information is immediately communicated in accordance with this Disclosure Policy.

c) Materiality of information

For the purpose of Listing Rule 3.1, a reasonable person will be taken to expect particular information to have a material effect on the price or value of any of the Company's securities if the information would, or would be likely to, influence persons who commonly invest in such securities in deciding whether to acquire or dispose of the securities.

d) Appointment of an Authorised Officer

The Company has appointed the Company Secretary as the officer who has primary responsibility for administration of the Company's Disclosure Policy. The Company Secretary's responsibilities include:

a. making sure that the Company complies with its continuous disclosure obligation, and monitoring that compliance;

b. overseeing and co-ordinating disclosure of information to POMSoX, analysts, brokers, shareholders, the media and the public; and

c. educating directors and employees on this Disclosure Policy and raising awareness of the principles underlying continuous disclosure.

5. Market Disclosure (continued)

e) Contravention and Liability

Contravention

The Company will contravene its continuous disclosure obligation if it fails to notify POMSoX of information required by Listing Rule 3.1 to be disclosed.

Liability

If the Company contravenes its continuous disclosure obligations, it may face criminal and civil liability under the Securities Act.

The Company's officers (including its directors and employees) and advisers who are involved in a contravention by the Company may also face criminal and civil liability.

Similarly, directors, officers and advisers may be criminally liable under the Criminal Code if they aid or abet, or are in any way knowingly concerned in, the Company's contravention.

Enforcement

The court has the power under the Securities Act to order the Company and its directors to comply with the Listing Rules, on the application of POMSoX, the Securities Commission or an aggrieved person (for example, a shareholder).

Roles and responsibilities of POMSoX and Securities

Commission

The Securities Commission and POMSoX jointly administer the continuous disclosure regime for listed companies in PNG. POMSoX is responsible for administering the Listing Rules while the Securities Commission is responsible for enforcing the Securities Act. POMSoX is required to notify the Securities Commission where it believes that there is an actual or anticipated serious contravention of the Listing Rules.

Unwanted publicity

Contravention of its continuous disclosure obligation may also lead to unwanted negative publicity for the Company.

Confidential information

As noted above, any information which is not confidential does not qualify for the exceptions described above. Information may also need to be disclosed if POMSoX has formed the view that confidentiality has been lost.

POMSoX will normally consult first with the Company if it has concerns about loss of confidentiality, which may be prompted by otherwise unexplained share price movements or by reference to media or analyst reports with significant, credible and reasonably specific information.

Other Specific Disclosure Requirements POMSoX

Listing Rules

In addition to complying with Listing Rule 3.1, the Company also needs to comply with other disclosure requirements contained in the POMSoX Listing Rules.

6. Shareholder Communications

As a public listed company, KAML seeks to communicate with its shareholders in a timely and effective manner. KAML seeks to encourage effective participation at general meetings by the shareholders. A key means of doing this is through complying with this policy.

a) Half Year and Full Year Report

KAML's Half-Year Report and Annual Report are the most important media through which the Company provides its shareholders with a detailed review and analysis of its objectives and performance.

The Half-Year Report must be lodged with the Registrar and POMSoX by 13 September each year. KAML endeavours to lodge the document with the Registrar and POMSoX by the end of the first week in September and send it to shareholders, other than those who have elected not to receive it, shortly after that.

The Annual Report must be sent to shareholders not less than one month before the date fixed for holding the annual meeting of shareholders. The document must be lodged with the Registrar and POMSoX at this time.

b) Announcements to POMSoX

Significant developments affecting the Company may be the subject of an announcement to POMSoX.

c) Analyst and Media Briefings

The Company may conduct analyst and media briefings from time to time when a significant event occurs or at other times throughout the year as necessary.

d) Email

Whenever possible the Company will use email to communicate with shareholders who wish to receive communications in electronic form.

e) Shareholder meetings

The Company will generally hold our general meetings of shareholders in Port Moresby and all shareholders are entitled and encouraged to attend. Notice of shareholder meetings will be given and will set out matters to be considered at the meeting.

[1] KSi Home Index – The KSi Home index is a 'Price Index' weighted by market capitalisation of Companies that are listed solely on the Port Moresby Stock Exchange. The index covers six of the largest stocks solely listed domestically and as trading volumes increase and information costs are reduced on the domestic bourse, the index will be converted into a Total Return Index.

[2] S&P/ASX 50 – comprises the 50 largest stocks by market capitalisation in Australia. The constituent companies represent the biggest national and multi-national publicly listed companies in the Australian equity market. The S&P/ASX 50 index places an emphasis on liquidity and investability. The constituents of the index are reviewed quarterly using the previous six months data.

[3] MSCI Asia All Country ex Japan - a free float-adjusted market capitalisation weighted index that is designed to measure the equity market performance of Asia, excluding Japan. The MSCI AC Asia ex Japan Index consists of the following 10 developed and emerging market country indices: China, Hong Kong, India, Indonesia, Korea, Malaysia, Philippines, Singapore, Taiwan, and Thailand.

[4] MSCI World ex Australia - a free float-adjusted market capitalisation weighted index that is designed to measure the equity market performance of developed markets. The MSCI World ex Australia Index consists of the following 23 developed market country indices: Austria, Belgium, Canada, Denmark, Finland, France, Germany, Greece, Hong Kong, Ireland, Israel, Italy, Japan, Netherlands, New Zealand, Norway, Portugal, Singapore, Spain, Sweden, Switzerland, the United Kingdom, and the United States.

Contents

The directors of Kina Asset Management Limited and its subsidiary submit herewith the annual financial report of the Company and the Group including the consolidated financial statements for the financial year ended 31 December 2013. In order to comply with the provisions of the Companies Act 1997, the directors report as follows:

The names, particulars and other office holdings of the directors and office holders of the Company during or since the end of the financial year are:

Directors

Sydney George Yates	Executive director
Sir Rabbie Langanai Namaliu	Non - executive director
Gregory Frank Taylor	Non - executive director

Company Secretary

The Company secretary is Sydney George Yates.

Review of operations

During the period, the Holding Company reported a net profit of K1,883,743 (2012: net profit of K66,101) after income tax expense of K26,832 (2012: income tax expense of K28,330), while the Group reported a net income of K8,190,945 (2012: net income of K4,732,414) after income tax expense of K888,765 (2012: income tax expense of K488,000).

Changes in state of affairs

During the financial year there was no significant change in the principal activities or state of affairs of the company other than that referred to in the financial statements or notes thereto.

Change in accounting policies

No changes in accounting policies occurred during the period.

Dividends

Dividends amounting to K1,826,131 were declared by the company in respect of the year ended 31 December 2013 (2012: Nil).

Directors' remuneration

Remuneration paid to the directors is disclosed in note 15 to the financial statements. The total remuneration paid to directors' during the period was K105,000 and consisted of fixed directors' fees.

Remuneration above K100,000 per annum

Nil.

Donations

No donations were made during the current period by the Company and the Group.

Independent audit report

The financial statements have been audited by PricewaterhouseCoopers and should be read in conjunction with the independent audit report on page 17.

Subsequent events

There has not been any matter or circumstance, other than that referred to in the financial statements or notes thereto, that has arisen since the end of the financial year, that has significantly affected, or may significantly affect, the operations of the Company and the Group, the results of those operations, or the state of affairs of the Company and the Group in future financial years.

Signed in accordance with a resolution of the directors.

On behalf of the Directors

Independent Auditor's Report

to the shareholders of Kina Asset Management Limited

Report on the financial statements

We have audited the accompanying financial statements of Kina Asset Management Limited (the Company), which comprise the statements of financial position as at 31 December 2013, the statements of comprehensive income, statements of changes in equity and statements of cash flows for the year then ended, and the notes to the financial statements that include a summary of significant accounting policies and other explanatory information for both the Company and the Group. The Group comprises the Company and the entities it controlled at 31 December 2013 or from time to time during the financial year.

Directors' responsibility for the financial statements

The Directors are responsible for the preparation of these financial statements such that they give a true and fair view in accordance with generally accepted accounting practice in Papua New Guinea and the Companies Act 1997 and for such internal controls as the Directors determine are necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with International Standards on Auditing. These standards require that we comply with relevant ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers the internal controls relevant to the Company and the Group's preparation of financial statements that give a true and fair view of the matters to which they relate, in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company and the Group's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the accompanying financial statements:

1. comply with International Financial Reporting Standards and other generally accepted accounting practice in Papua New Guinea; and
2. give a true and fair view of the financial position of the Company and the Group as at 31 December 2013, and their financial performance and cash flows for the year then ended.

Independent Auditor's Report

to the shareholders of Kina Asset Management Limited

Report on other legal and regulatory requirements

The Companies Act 1997 requires in carrying out our audit we consider and report on the following matters. We confirm in relation to our audit of the financial statements for the year ended 31 December 2013:

1. we have obtained all the information and explanations that we have required;
2. in our opinion, proper accounting records have been kept by the Company as far as appears from an examination of those records; and
3. we have no relationship with, or interest in the Company, other than in our capacities as auditor and tax advisor. These services have not impaired our independence as auditor of the Company and the Group.

Restriction on distribution or use

This report is made solely to the Company's shareholders, as a body, in accordance with the Companies Act 1997. Our audit work has been undertaken so that we might state to the Company's shareholders those matters which we are required to state to them in an auditor's report and for no other purpose. We do not accept or assume responsibility to anyone other than the Company and the Company's shareholders, as a body, for our audit work, for this report or for the opinions we have formed.

Notes to the financial statements are included on pages 22 to 31.

1. General information

Kina Asset Management Limited and its Subsidiary Kina Asset Management No. 1 Limited (the Group) is an investment company incorporated as a limited liability Company in Papua New Guinea.

2. Significant accounting policies

Statement of compliance

The financial statements of Kina Asset Management Limited and its Subsidiary (the Group) have been prepared in accordance with International Financial Reporting Standards as adopted by the Accounting Standards Board of Papua New Guinea (ASB) and the requirements of the Papua New Guinea Companies Act 1997.

Changes in accounting policies and disclosures

There are no IFRSs or IFRIC interpretations that are effective for the first time for the year beginning on or after 1 January 2013 have had a material impact on the company or the Group.

There are certain standards and amendments to standards and interpretations which will be effective for periods commencing on or after 1 January 2014. These include ammendments to IFRS 9 'Financial instruments', IAS 32 'Financial Instruments: Presentation' which management does not believe will have a significant impact.

There are no other IFRS's or IFRIC interpretations that are not yet effective that would be expected to have a material impact on the company or the Group

Basis of preparation

The financial report has been prepared on the basis of historical cost, except for the revaluation of certain non-current assets and financial instruments. Cost is based on the fair values of the consideration given in exchange for assets. All amounts are presented in Papua New Guinea kina, unless otherwise noted.

The following significant accounting policies have been adopted in the preparation and presentation of the financial report:

(a) Basis of consolidation

The consolidated financial statements incorporate the financial statements of the Company and entities controlled by the Company (its subsidiary) (referred to as 'the Group' in these financial statements). Control is achieved where the Company has the power to govern the financial and operating policies of an entity so as to obtain benefits from its activities.

Where necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with those used by other members of the Group.

All intra-group transactions, balances, income and expenses are eliminated in full on consolidation.

(b) Cash and cash equivalents

Cash comprises cash on hand and demand deposits. Cash equivalents are short-term, highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

(c) Comparative amounts

Where necessary, comparative figures have been adjusted to conform to current disclosure and reclassification of balances. This has not resulted in any adjustment to net assets or profits. The financial statement presentation has been amended to better reflect the nature of activites of the Group, including the presentation of assets and liabilities and certain cash flows.

(d) Financial instruments

Investments are recognised and derecognised on trade date where the purchase or sale of an investment is under a contract whose terms require delivery of the investment within the timeframe established by the market concerned and are initially measured at fair value, net of transaction costs except for those financial assets classified as at fair value through profit or loss which are initially measured at fair value.

Other financial assets are classified into the following specified categories: financial assets 'at fair value through profit or loss', 'held-to-maturity investments', 'available-for-sale' financial assets, and 'loans and receivables'. The classification depends on the nature and purpose of the financial assets and is determined at the time of initial recognition. Financial assets are largely financial assets at fair value through profit or loss.

Financial assets are classified as financial assets at fair value through profit or loss where the financial asset:

(i) has been acquired principally for the purpose of selling in the near future;

(ii) is a part of an identified portfolio of financial instruments that the Group manages together and has a recent actual pattern of short-term profit-taking; or

(iii) is a derivative that is not designated and effective as a hedging instrument.

Financial assets at fair value through profit or loss are stated at fair value, with any resultant gain or loss recognised in profit or loss. The net gain or loss recognised in profit or loss incorporates any dividend or interest earned on the financial asset.

Impairment of financial assets

Financial assets, other than those at fair value through profit or loss, are assessed for indicators of impairment at each balance sheet date. Financial assets are impaired where there is objective evidence that as a result of one or more events that occurred after the initial recognition of the financial asset the estimated future cash flows of the investment have been impacted. For financial assets carried at amortised cost, the amount of the impairment is the difference between the asset's carrying amount and the present value of estimated future cash flows, discounted at the original effective interest rate.

The carrying amount of the financial asset is reduced by the impairment loss directly for all financial assets with the exception of receivables where the carrying amount is reduced through the use of an allowance account. When a receivable is uncollectible, it is written off against the allowance account.

(d) Financial instruments (continued)

Subsequent recoveries of amounts previously written off are credited against the allowance account. Changes in the carrying amount of the allowance account are recognised in profit or loss.

With the exception of available-for-sale equity instruments, if, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognised, the previously recognised impairment loss is reversed through profit or loss to the extent the carrying amount of the investment at the date the impairment is reversed does not exceed what the amortised cost would have been had the impairment not been recognised.

In respect of available-for-sale equity instruments, any subsequent increase in fair value after an impairment loss is recognised directly in equity.

Compound instruments

The component parts of compound instruments are classified separately as financial liabilities and equity in accordance with the substance of the contractual arrangement. At the date of issue, the fair value of the liability component is estimated using the prevailing market interest rate for a similar non-convertible instrument. This amount is recorded as a liability on an amortised cost basis until extinguished on conversion or upon the instruments reaching maturity. The equity component initially brought to account is determined by deducting the amount of the liability component from the fair value of the compound instrument as a whole. This is recognised and included in equity, net of income tax effects and is not subsequently remeasured.

Financial liabilities

Financial liabilities are classified as either financial liabilities 'at fair value through profit or loss' or other financial liabilities.

Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss are stated at fair value, with any resultant gain or loss recognised in profit or loss. The net gain or loss recognised in profit or loss incorporates any interest paid on the financial liability.

Other financial liabilities

Other financial liabilities, including borrowings, are initially measured at fair value, net of transaction costs.

Other financial liabilities are subsequently measured at amortised cost using the effective interest method, with interest expense recognised on an effective yield basis.

(e) Foreign currency

The individual financial statements of the Group are presented in the currency of the primary economic environment in which the entity operates (its functional currency). For the purpose of the financial statements, the functional currency is Papua New Guinea kina.

(f) Income tax

Current tax

Current tax is calculated by reference to the amount of income taxes payable or recoverable in respect of the taxable profit or tax loss for the period. It is calculated using tax rates and tax laws that have been enacted or substantively enacted by reporting date. Current tax for current and prior periods is recognised as a liability (or asset) to the extent that it is unpaid (or refundable).

Deferred tax

Deferred tax is accounted for using the balance sheet liability method. Temporary differences are differences between the tax base of an asset or liability and its carrying amount in the balance sheet. The tax base of an asset or liability is the amount attributed to that asset or liability for tax purposes.

In principle, deferred tax liabilities are recognised for all taxable temporary differences. Deferred tax assets are recognised to the extent that it is probable that sufficient taxable amounts will be available against which deductible temporary differences or unused tax losses and tax offsets can be utilised. However, deferred tax assets and liabilities are not recognised if the temporary differences giving rise to them arise from the initial recognition of assets and liabilities (other than as a result of a business combination) which affects neither taxable income nor accounting profit.

Deferred tax liabilities are recognised for taxable temporary differences associated with investments in subsidiaries except where the Group is able to control the reversal of the temporary differences and it is probable that the temporary differences will not reverse in the foreseeable future. Deferred tax assets arising from deductible temporary differences associated with these investments and interests are only recognised to the extent that it is probable that there will be sufficient taxable profits against which to utilise the benefits of the temporary differences and they are expected to reverse in the foreseeable future.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the period(s) when the asset and liability giving rise to them are realised or settled, based on tax rates (and tax laws) that have been enacted or substantively enacted by reporting date. The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Group expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset when they relate to income taxes levied by the same taxation authority and the company/Group intends to settle its current tax assets and liabilities on a net basis.

2. Significant accounting policies (continued)

(f) Income tax (continued)

Current and deferred tax for the period

Current and deferred tax is recognised as an expense or income in the income statement, except when it relates to items credited or debited directly to equity, in which case the deferred tax is also recognised directly in equity.

(g) Income recognition

Changes in net market value of investments are recognised as income in the profit and loss in the period in which they occur. Changes in net market value are determined as the difference between the net market value at balance date or consideration received (if sold during the year) and the net market value at previous balance date or the cost (if the investment was acquired during the year).

Dividend and interest revenue

Dividend revenue from investments is recognised when the shareholder's right to receive payment has been established.

Interest revenue is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount.

(h) Goods and service tax

Revenues, expenses and assets are recognised net of the amount of goods and services tax (GST), except

i) where the amount of GST incurred is not recoverable from the taxation authority, it is recognised as part of the cost of acquisition of an asset or as part of an item of expense; or

(ii) for receivables and payables which are recognised inclusive of GST.

The net amount of GST recoverable from, or payable to, the taxation authority is included as part of receivables or payables.

Cash flows are included in the cash flow statement on a gross basis. The GST component of cash flows arising from investing and financing activities which is recoverable from, or payable to, the taxation authority is classified as operating cash flows

(i) Provisions

Provisions are recognised when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that the Group will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation. The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at reporting date, taking into account the risks and uncertainties surrounding the obligation. Where a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows.

(j) Critical accounting estimates and judgements

The preparation of financial statements in conformity with IFRS requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Company's accounting policies. Although these estimates are based on management's best knowledge of current events and conditions, actual results could differ from these estimates.

No significant estimates or judgements have been required in applying accounting policies which may have a material impact on the Company's net assets.

Others	26,595	30,309	265,922	332,592
	172,312	142,182	311,504	378,174

5. Share capital

Fully paid ordinary shares				
46,154,407 (2012: 45,653,330)	46,106,994	45,630,886	46,106,994	45,630,886
	46,106,994	45,630,886	46,106,994	45,630,886

Fully paid ordinary shares carry one vote per share and the right to dividends.
During the year the company issued an additional 501,077 shares for K476,108 (0.95T per share).

6. Income taxes

Income tax recognised in profit or loss

Tax expense/(income) comprises:				
Current tax expense	935,257	463,977	103,698	68,187
Deferred tax	(46,492)	24,023	(76,866)	(39,857)
Prior year unrecognised tax losses	-	-	-	-
Prior year over provision	-	-	-	-
Total tax expense	888,765	488,000	26,832	28,330

The prima facie income tax expense on pre-tax accounting loss from operations reconciles to the income tax expense in the financial statements as follows:

Profit/ before tax	9,079,710	5,220,414	1,915,575	94,431
Income tax expense calculated at 30%	2,723,913	1,566,125	574,672	28,330
Tax effect of non-assessable income	(1,835,148)	(1,078,124)	(547,840)	-
	888,765	488,000	26,832	28,330

The tax rate used in the above reconciliation is the corporate tax rate of 30% payable by Papua New Guinea corporate entities on taxable profits under Papua New Guinea tax law.

Kina Asset Management No 1 Limited	Papua New Guinea	100	100

12. Notes to the cash flow statement

Reconciliation of cash and cash equivalents

For the purposes of the cash flow statement, cash and cash equivalents includes cash on hand and in banks and investments in money market instruments, net of outstanding bank overdrafts. Cash and cash equivalents at the end of the financial year as shown in the cash flow statement is reconciled to the related items in the balance sheet as follows:

	Consolidated		Company	
	2013	2012	2013	2012
	K	K	K	K
Cash and cash equivalents	5,064,331	672,093	31,250	11,033
Interest bearing deposit	-	-	-	-
	5,064,331	672,093	31,250	11,033

13. Financial instruments

(a) Financial risk management objectives

Kina Funds Management Limited's finance function provides services to the business, co-ordinates access to domestic and international financial markets, monitors and manages the financial risks relating to the operations of the Group through internal risk reports which analyses exposures by degree and magnitude of risks. These risks include market risk (including currency risk, fair value interest rate risk and price risk), credit risk, liquidity risk and cash flow interest rate risk.

The Group's activities expose it primarily to the financial risks of changes in foreign currency exchange rates and fair values.

(b) Significant accounting policies

Details of the significant accounting policies and methods adopted, including the criteria for recognition, the basis of measurement and the basis on which income and expenses are recognised, in respect of each class of financial asset, financial liability and equity instrument are disclosed in note 1 to the financial statements.

(c) Foreign currency risk management

The Group undertakes certain transactions denominated in foreign currencies, hence exposures to exchange rate fluctuations arise. Although there are no specific hedging activities, to mitigate any currency risks, this exposure is being monitored by management on an ongoing basis. The Group does not engage in any hedging activities. The exchange rates used for conversion are AUD/Kina 0.4350 USD/Kina 0.3950 and GBP/Kina 0.2320.

The carrying amounts of the Group's foreign currency denominated monetary assets and monetary liabilities at the end of the reporting period are as follows:

	Assets	Liabilities
2013	K	K
Australian Dollar	27,824,414	-
US Dollar	1,766,017	-
GBP Pound	1,501,915	-

Foreign currency sensitivity analysis

The Group is mainly exposed to the currency of Australian Dollar, US Dollar and GBP Pounds.

The following table details the Group's sensitivity to a 10% increase and decrease in the Kina against the relevant foreign currencies. 10% is the sensitivity rate used when reporting foreign currency risk internally to key management personnel and represents management's assessment of the reasonably possible change in foreign exchange rates. The sensitivity analysis includes only outstanding foreign currency denominated monetary items and adjusts their translation at the period end for a 10% change in foreign currency rates. The sensitivity analysis includes listed shares and term deposits where the denomination of the investment is in a currency other than Kina. A positive number below indicates an increase in profit and other equity where the Kina strengthens 10% against the relevant currency. For a 10% weakening of the Kina against the relevant currency, there would be a comparable impact on the profit and other equity, and the balances below would be negative.

	Australian Dollar Impact		US Dollar Impact		GBP Dollar Impact	
	10% increase	10% decrease	10% increase	10% decrease	10% increase	10% decrease
Loss/(profit)	(2,529,492)	3,091,602	(160,547)	196,224	(136,547)	166,879

(d) Interest and credit rate risk management

The Group maintains its cash and bank balances with financial institutions that have credit standing. The majority of funds are held with Westpac Bank Limited which has a Standard & Poor rating of AA-.

(e) Liquidity risk

The Group invests the majority of its assets in investments that are traded in an active market. The Group holds securities that are listed on the Port Moresby Stock Exchange (POMSOX), the Australian Stock Exchange (ASX) and London Stock Exchange (LSX). Those securities listed on the ASX and LSX are considered readily realisable while those listed on the POMSOX are not due to illiquidity of the market. Ultimate responsibility for liquidity risk management rests with the board of directors, which has built an appropriate liquidity risk management framework for the management of the Group short, medium and long-term funding and liquidity management requirements. The Group manages liquidity risk by maintaining adequate banking facilities.

13. Financial instruments (continued)

(f) Other price risk

The Group is exposed to equity price risks arising from equity investments. The sensitivity analysis below have been determined based on the exposure to equity price risks at the end of the reporting period.

If the equity prices had been 5% higher/lower net profit for the year ended 31 December 2013 would increase/decrease by K2,246,289.

(g) Fair value of financial instruments

The fair value of financial assets and financial liabilities with standard terms and conditions and traded on active liquid markets are determined with reference to quoted market prices.

The directors consider that the carrying amounts of financial assets and financial liabilities recorded at amortised cost in the financial statements approximates their fair values.

14. Segment reporting

The Group operates in one segment – investments, in Papua New Guinea. For the Management purposes, segment information determination is based on risk involved with deposit, equities and currency.

	Deposit	Equities	Currency	KAML1	KAML	Adjust inter Segments	Total
	K	K	K	K	K	K	K
Revenue	27,220	9,385,748	531,094	9,944,062	2,362,798	(2,362,798)	9,944,062
Expenses				(953,798)	(447,223)	2,362,798	(864,352)
Operating Profit				8,990,264	1,915,575	-	9,079,710

Net profit				8,128,331	1,888,743	-	8,190,945

15. Capital commitments

There were no capital commitments at year end.

16. Directors and key management personnel compensation

Details of key management personnel

		2013	2012
		K	K
Sydney George Yates	CEO & Managing Director	Nil	Nil

Details of Directors Fees

The total remuneration paid to directors' during the period was K105,000 and consisted of fixed directors' fees, as follows

	2013	2012
	K	K
Sir Rabbie Namaliu	60,000	60,000
Gregory Taylor	45,000	45,000
Sydney George Yates	Nil	Nil

Sydney George Yates received no fees for his services as director.

17. Related party transactions

(a) Equity interests in related parties

Equity interests in subsidiaries

Details of the percentage of ordinary shares held in subsidiaries are disclosed in note 12 to the financial statements.

(b) Transactions with key management personnel

i. Key management personnel compensation

Details of key management personnel compensation are disclosed in note 16 to the financial statements.

ii. Loans to key management personnel

There have been no loans to key management personnel of the Group or to their related entities.

iii. Transactions with key management personnel of the Group

During the financial year there were no transactions with key management personnel.

17. Related Party Transactions (continued)

(c) Transactions with other related parties

Other related parties include:

- Kina Securities Limited and its subsidiaries, Kina Finance Limited and Kina Funds Management Limited by virtue of those entities having common directors and providing management services to the Company's parent.
- Sydney George Yates is a director of Kina Securities Limited and Kina Funds Management Limited, owns Columbus Investments Limited, which is a shareholder in Kina Asset Management Limited and Kina Securities Limited, and indirectly Kina Funds Management Limited. He is an employee of Kina Securities Limited and is remunerated by that company.

Transactions between the Group and its related parties

During the year the holding company charged management fees of K536,667 (2012:K566,589) to its subsidiary. A management fee is charged by holding the company, on the basis of total expenses incurred by the company plus 20%. Payment is through the intercompany account.

Deposit transactions can be entered into with Kina Finance Limited and its subsidiary in the normal course of business. These transactions are carried out on commercial terms and market rates.

	2013	2012
	K	K
Opening balance	-	743,747
Net movement	-	(743,747)
Closing balance	-	-
Interest Earned	-	3,023

Outstanding payable at year end of K30,897 (2012: K40,869) to Kina Funds Management Limited arising from transactions between the Group and its related parties. Kina Funds Management Limited provided investment management services that are disclosed in the income statement.

Kina Securities Limited, the holding company of Kina Funds Management Limited earned brokerage of K30,856 (2012: K21,391) for executing trades during the period.

Transactions and balances between the Company and its subsidiary were eliminated in the preparation of consolidated financial statements of the Group.

The Company funds the investment operations of its subsidiary as disclosed in the Statement of Financial Position (interest free).

The company received a dividend of K1,826,131 from its subsidiary.

(d) Equity interests held by key management personnel

- Sir Rabbie Langanai Namaliu: 53,961 shares held through Tobit Investments Limited (2012:50,000).
- Gregory Frank Taylor: 34,000 shares held directly (2012: 34,000).
- Sydney George Yates: 3,116,596 shares held through Columbus Investment Limited (2012: 3,064,175).
